

## **NEW PRODUCT: DRAGON RACING FUELS RACE FUEL CONCENTRATE**

October 28, 2010 Lafayette, IN – Dragon Racing Fuels is pleased to unveil its new Unleaded Racing Fuel Concentrate in 32 oz. cans. Designed for use in anything from jet skis and boats, snowmobiles, tuner cars, motorcycles and all other off-road applications Dragon Racing Fuel Concentrate is truly “horsepower in a bottle”.

Not just an octane booster like you find on the shelves of a supercenter or parts store, the concentrate actually raises a premium pump gas up to a 102 octane racing fuel. Produced using today’s most advanced technology to bring you the greatest performance from an unleaded fuel.

Safe for O<sub>2</sub> sensors and catalytic converters.
